Harte, the Harvard pair, 7-9, 6-4, 6-4, 6-3.

In the first set Johnston was off form. His short game at the net produced no results and he rarely got a ball across. Griffin worked away gallantly, his stingers to Williams holding the tally of games even to 7 all. The smashing of Harte as he leaped into air to pull down drives and master the opposing side finally broke through Griffin's service for the set, 9-7.

Williams was taking long chances with his injured ankle and in the second game of the second set he fell. That caused him to be more cautious, especially as Johnston was finding his strokes and getting into the rallies to win points by cross-courting the ball or speeding drives to deep court.

The champions were much superior in the third and fourth sets.

WHITE'S SPARRING PARTNERS RESIGN

[Republican A. P. Leased Wire]
COLORADO SPRINGS, August 26.—It was after dark tonight when Freddie Welsh completed his training stunts in preparation for his twenty-round bout here on Labor day with Charlie White. The champion covered twelve miles over mountain roads in the morning and then went through various forms of exercise. At six o'clock he appeared at the headquarters of the Hundred Million Dollar club and boxed 12 rounds with his sparring partners. Beginning Monday Welsh will increase the amount of work and by the middle of the week will be boxing 20 rounds.

Charlie White sent out a call today for more sparring partners. He is in fine fettle and two of his allies announced tonight that they would not continue to serve longer as punching bags for the Chicagoan.

The Olympic club of San Francisco in the past, has turned out some of the greatest fistic stars of the country, including such champions as James J. Corbett, and James Britt, believes it is the makings of another star destined to shine in the roped arena.

The pugilistic hope is Lawrence Higby. It is only two months ago that Professor Green, boxing instructor at the club, first noted the manner in which Higby handled himself, and watched his work. So impressed was the professor that he took the young athlete in tow and proceeded to show him something of the art of the game.

Higby has proved an apt pupil and now Green says that in the not distant future his charge is quite likely to be a contender for heavyweight honors.

Higby stands six feet two inches in his stocking feet and weighs 200 pounds. Instead of being massive in structure he is lithe of build which makes him a fast man, one of the fastest for his size, Green says he has seen in the ring. He is said to have a staggering punch in either hand and above all is a quick and intelligent thinker.

Higby is yet a mere novice at the game but he has been up against some of the heaviest and toughest of the club's seasoned boxers and has more than held his own in these trials. He is improving fast and Green expects to have him sufficiently advanced to enter him in the next boxing show the club will stage at its gymnasium.

SWIFT HAS SWIFT BLAZE

[Republican A. P. Leased Wire]
CHICAGO, August 26.—Fire destroyed two five-story brick buildings belonging to Swift & Co., at the stockyards, tonight, causing a loss estimated at \$200,000. The flames spread with such rapidity that half of the fire apparatus of the city was called to prevent a spread to other structures.

SPORT COMMENT

[Republican A. P. Leased Wire]
SAN FRANCISCO, Aug. 26.—H. W. Postlethwaite, president of the Northern California Golf Association, expresses the opinion that due to the rulings of the national governing body in its efforts to suppress professionalism, which rulings he considers too arbitrary, there is a possibility of its being supplanted by a new national organization. He concurs with Charles "Chick" Evans, that the recent western championship held at Del Monte, Cal., was a failure owing to the absence of eastern players, due largely to the fact that the United States Golf Association ruled against participants availing of the free transportation offered them.

"I do not think the refusal of the special train was justified," said Postlethwaite, "and claims that the offer of the Californians was no more tinged with professionalism than the invitation of a friend to take a man to the links in his private car."

"The need of a strong local organization to control golf on the Pacific coast has long been evident to those seriously interested in the welfare and

JOHNSTON-GRIFFIN TEAM WINS DOUBLES

[Republican A. P. Leased Wire]
SOUTHAMPTON, N. Y., August 26.—William M. Johnston and Clarence J. Griffin, the California holders of the national doubles championship, won the Meadow Club tennis tournament doubles here today after four hotly contested sets, filled with spectacular drives and smashing. They defeated R. Norris Williams II and Richard

progress of the game. "At present the government of the sport is divided between the Northwest Association, holding sway over Oregon and Washington, the Northern California and Southern California. We need a comprehensive body, formed of delegates from these organizations.

"Everything west of Denver should be in the hands of the Pacific coast. The Western Golf Association, which has headquarters at Chicago, is too far away. The golf here should be directed by men who understand the local conditions and we should owe allegiance to no one but the national organization.

"In my view the national organization is going too far in its desire to keep out of professionalism. I should not be surprised to see a new national body arise.

"There will be a meeting next year to establish the new Pacific coast organization. It is too late this season to accomplish anything worth while."

The Peninsula Country Club, recently organized to foster outdoor sports of all kinds, both on land and water, probably enjoys the unique distinction of being the only club that ever had its home, completely built and ready for occupancy, shipped to it via the water route.

The club's directors bought the Ohio building, one of the impressive structures at the Panama-Pacific International Exposition last year. This was placed on great scows and towed approximately 25 miles to San Carlos, on San Francisco Bay, where the club's property is located. The removal of the building from the fair grounds on to the seavoy, with the attendant difficulties due to the rise and fall of the tide, is considered a distinctive engineering feat.

The club has obtained 200 acres of land at the head of Steinerberger Estuary, recently renamed San Carlos Channel. Contracts have been let and work has commenced for dredging the channel and yacht harbor and for the construction of a large salt water swimming pool. Thus yachting, motor boating, canoeing and swimming will be promoted.

Tom Bendelo, the Chicago golf professional, who is credited with laying out about 80 per cent of the links in this country, has been engaged to lay out an 18-hole course. Provision also is being made for polo, tennis and trap shooting. Even the more venturesome who are taking up aeroplaning and hydro-aeroplaning, will find all the necessary appliances to indulge their sport.

In view of the fact that the State Highway passes the club gates, members who own automobiles will find it particularly accessible and every detail for the owner of a car will be cared for. The grounds are being handsomely landscaped and it is aimed to rival Travers Island, the famous summer home of the New York Athletic Club.

Like the American Indian, the modern "Savage," the buyer of Savage Tires and Grafite Tubes is far sighted.

Far sighted because he realizes that final cost—actual mileage per dollar—is the real test.

Far sighted because in buying Savages, he gets both greater mileage and a small first cost.

Far sighted because he gets 1000 extra miles in the Savage guarantee allowance (the Savage Tube is guaranteed for life), and many extra thousands in actual use.

"Whatever ar'ye doin', Pat, sticking that dollar bill doon that crack?"

"Why, I dropt a dime, an' I'm making it worth me while to pull up the plank."

Buying another tire of the same make to save the allowance due on an undelivered guarantee is a very similar performance.

Kelly-Springfield Automobile Tires - Hand Made

ARE guaranteed for 5,000, 6,000, and 7,500 miles. They needn't be, for it doesn't do you any particular good save in the rarest instances. Cases when Kelly-Springfield tires fail to yield their guaranteed mileage are nearly as scarce as hen's teeth.

But the buying public expects a guarantee when it buys a tire, and we're willing to concede that to its prejudices.

Normally, Kelly-Springfield tires yield 8,000 to 10,000 miles—often 12,000 or more.

If there were any doubt of them yielding 5,000 miles, we would only guarantee them for 4,000 miles, or even less. We are not selling guarantees; we are selling tire service. We don't want bickering over guarantees; we want satisfied customers only.
